**EL TEMSAH INTERNATIONAL
MANUFACTURING & TRADING**

ABOUT TEMSCO

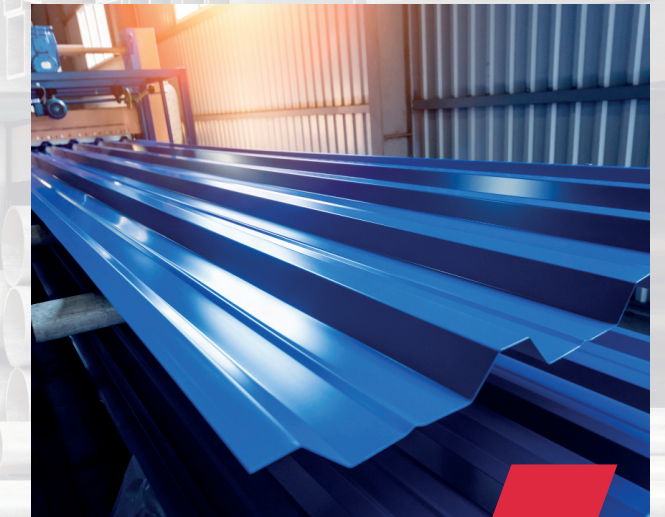

Temsah International Manufacturing and Trading Company (TEMSCO) has a rich history of over **63 years** in the steel industry, founded in 1960 by Abdel Monsef El Mokadem. In **2020**, TEMSCO entered into a joint venture with El Masry Group of Chairman Eng. Hany Elmasry. In 2022, we established a state-of-the-art factory for longitudinally welded steel pipes & hollow sections, covering an extensive area of 22,000 m². ERW Pipe Production lines were rated as production capacity of **270,000 tons by year**.

Temsco has an advanced inspection and test center and it also has an advanced inspection and test center, which can conduct various physical and chemical tests of steel pipes. We have successively obtained **ISO 9001, ISO 14001, ISO 45001 system certification, special equipment**.

TEMSCO
EL TEMSAH INTERNATIONAL MANUFACTURING & TRADING

We have the greatest experience in the superior technology of the following machine lines: ERW pipe production lines for structure, slitting lines, sheeting, cut-to-length lines, profile roll forming lines, corrugated sheets forming lines, hot rolled CNC cutting and drilling, laser machine Italy width 3*6 to cutting 1.5 mm up to 50 mm, cold profiling purlins lines enable us to provide to various industries, such as lighting poles, electricity poles, steel sheeting, , metal construction, . Our commitment to excellence remains unwavering.

VISION

Temsko provides products & services of the highest possible quality with advanced technology applications across all sectors it operates. Innovation & investment for the future remain to be the driving force that guides us to leadership every industry we work.

MISSION

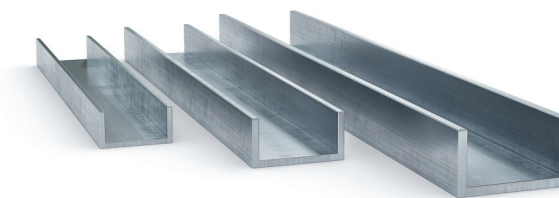

At **Temsko**, our primary objective is to become the most leading & trusted supplier for our customers. We are dedicated to expanding our market share in the global steel products industry & positioning ourselves as a benchmark of excellence both domestically & internationally. With a registered trademark in metal manufacturing, we aim to drive innovation & deliver comprehensive solutions while continuously enhancing our production lines to ensure high quality product.

VALUES

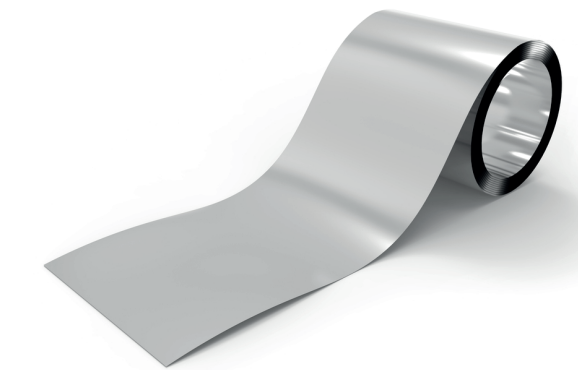

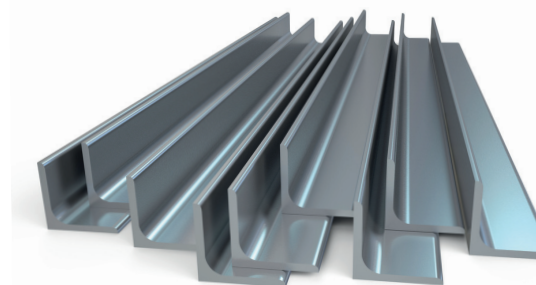

we believe in progress and commitment; we seek opportunities & growth prospects. We commit to our customers, shareholders, workers & stakeholders. We believe each member is an asset of value.

TemSCO dedicated to upholding high safety measures to provide a secure working environment for our employees and the surrounding society. Our commitment to safety is an essential responsibility that ensures our value & reputation in the market. Collaborating with various companies in different sectors, we ensure awareness of our Occupational Health & Safety Management System among our employees, stakeholders, & partners. As a leading construction firm, we recognize the significance of safeguarding individuals, employees, & the environment. Through meticulous planning & area studies prior to operations, we actively avoid potential mistakes, reinforcing our dedication to safety & our status as a reliable & responsible company.

SAFETY

ELECTRIC RESISTANCE WELDED LINE-ERW

Pipes are welded longitudinally, manufactured from Strip/Coil & can be manufactured up to 8" OD. ERW pipe cold formed from a ribbon of steel pulled through a series of rollers and formed into a tube which is fused through an electric charge.
